

Importing PDFs to your Gallery ✕

To start, add PDFs by clicking the ⊕ button in the Toolbar above, or drag and drop them into your Gallery.

The Gallery is the home base for your PDFs, where you can examine one or more at a time.

Navigating Content ✕

Explore your content using the Table of Contents or Page Thumbnails, which reflect the PDFs in your Gallery.

Quickly navigate to any section or page across your entire set of PDFs.

Visualizing Content

Use the Word Cloud and Index to gain new insights into your content.

Display occurrences by clicking on a concept, and immediately navigate to the corresponding locations in the PDFs.

You're All Set!

You can find more detailed information on features and configurations in the User Guide from the Help menu.

It is now time to create your first kBase from the File menu or to continue exploring our sample kBase.

Happy exploring!
